Section 64-5-211 Bond issues -- Refunding bonds -- Appropriation requests.

(a) The authority is authorized and empowered to issue its bonds from time to time for the purpose of paying in whole or in part the cost of acquiring lands and interests therein and of constructing facilities and improvements subject to the limitations and conditions provided in this part. Any resolution of the board authorizing the sale of bonds shall be submitted to the state funding board established by §9-9-101, and such resolution shall only become effective upon receiving the approval of the state funding board. The state funding board, upon rejecting any resolution of the board authorizing any bond issue, shall state in writing the reasons for this action.

(b) (1) Except as otherwise expressly provided in this section, all bonds issued by the authority are payable solely out of the revenues and receipts derived from the agency's projects or of any of the bonds as may be designated in the proceedings of the board under which the bonds are authorized to be issued, including debt obligations of the lessee or contracting party obtained from or in connection with the financing of a project; provided, that notes issued in anticipation of the issuance of bonds may be retired out of the proceeds of such bonds. Such bonds may be executed and delivered by the authority at any time and from time to time, may be in such form and denominations and of such terms and maturities, may be in registered or bearer form either as to principal or interest, or both, may be payable in such installments and at such time or times not exceeding forty (40) years from the date thereof, may be payable at such place or places whether within or without the state of Tennessee, may bear interest at such rate or rates payable at such time or times and at such place or places and evidenced in such manner, may be executed by such officers of the authority, and may contain such provisions not inconsistent herewith, all as shall be provided in the proceedings of the board whereunder the bonds shall be authorized to be issued.

(2) If deemed advisable by the board, there may be retained in the proceedings under which any bonds of the authority are authorized to be issued an option to redeem all or any part thereof as may be specified in such proceedings, at such price or prices and after such notice or notices and on such terms and conditions as may be set forth in such proceedings and as may be briefly recited on the face of the bonds, but nothing contained in this section shall be construed to confer on the authority any right or option to redeem any bonds except as may be provided in the proceedings under which they are issued.

(3) Any bonds of the authority may be sold at public or private sale in such manner, at such price and from time to time as may be determined by the board to be most advantageous, and the authority may pay all expenses, premiums and commissions that its board may deem necessary or advantageous in connection with the issuance thereof.

(4) Issuance by the board of one (1) or more series of bonds for one (1) or more purposes shall not preclude it from issuing other bonds in connection with the same project or any other project, but the proceedings whereunder any subsequent bonds may be issued shall recognize and protect any prior pledge or mortgage made for any prior issue of bonds.

(5) Proceeds of bonds issued by the authority may be used for the purpose of constructing, acquiring, reconstructing, improving, equipping, furnishing, bettering or extending any project or

projects, including the payment of interest on the bonds during construction of any such project and for two (2) years after the estimated date of completion and payment of engineering, fiscal, architectural and legal expenses incurred in connection with such project and the issuance of the bonds and the establishment of a reasonable reserve fund for the payment of principal of and interest on such bonds in the event of a deficiency in the revenues and receipts available for such payment.

(c) Any bonds or notes of the authority at any time outstanding may at any time and from time to time be refunded by the authority by the issuance of its refunding bonds in such amount as the board of directors may deem necessary, but not exceeding the sum of the following:

(1) The principal amount of the obligations being refinanced;

(2) Applicable redemption premiums thereon;

(3) Unpaid interest on such obligations to the date of delivery or exchange of the refunding bonds;

(4) In the event the proceeds from the sale of the refunding bonds are to be deposited in trust as provided in this section, interest to accrue on such obligations from the date of delivery to the first or any subsequent available redemption date or dates selected, in its discretion, by the board or to the date or dates of maturity, whichever is determined by the board to be most advantageous or necessary to the authority;

(5) A reasonable reserve for the payment of principal of and interest on such bonds and/or a renewal and replacement reserve;

(6) If the project to be constructed from the proceeds of the obligations being refinanced has not been completed, an amount sufficient to meet the interest charges on the refunding bonds during the construction of such project and for two (2) years after the estimated date of completion, but only to the extent that interest charges have not been capitalized from the proceeds of the obligations being refinanced; and

(7) Expenses, premiums and commissions of the authority, including bond discounts, deemed by the board to be necessary for the issuance of the refunding bonds. A determination by the board that any refinancing is advantageous or necessary to the authority or, that any of the amounts provided in this subdivision (c)(7) should be included in such refinancing or that any of the obligations to be refinanced should be called for redemption on the first or any subsequent available redemption date or permitted to remain outstanding until their respective dates of maturity shall be conclusive.

(d) Any such refunding may be effected whether the obligations to be refunded shall have then matured or shall thereafter mature, either by the exchange of the refunding bonds for the obligations to be refunded thereby with the consent of the holders of the obligations so to be refunded or by sale of the refunding bonds and the application of the proceeds thereof to the payment of the obligations to be refunded thereby, and regardless of whether or not the obligations proposed to be refunded are payable on the same date or different dates or are due serially or otherwise.

(e) Prior to the issuance of the refunding bonds, the board shall cause notice of its intention to issue the refunding bonds, identifying the obligations proposed to be refunded and setting forth the estimated date of delivery of the refunding bonds, to be given to the holders of the outstanding obligations by publication of an appropriate notice one (1) time each in a newspaper having general

circulation in the area and in a financial newspaper published in New York, New York, and having national circulation. As soon as practicable after the delivery of the refunding bonds, and whether or not any of the obligations to be refunded are to be called for redemption, the board shall cause notice of the issuance of the refunding bonds to be given in the manner provided in this subsection (e).

(f) If any of the obligations to be refunded are to be called for redemption, the board shall cause notice of redemption to be given in the manner required by the proceedings authorizing such outstanding obligations.

(g) The principal proceeds from the sale of any refunding bonds shall be applied only as follows:

(1) To the immediate payment and retirement of the obligations being refunded; or

(2) To the extent not required for the immediate payment of the obligations being refunded, then such proceeds shall be deposited in trust to provide for the payment and retirement of the obligations being refunded and to pay any expenses incurred in connection with such refunding, but provision may be made for the pledging and disposition of any surplus, including, without limitation, provision for the pledging of any such surplus to the payment of the principal of and interest on any issue or series of refunding bonds. Money in any such trust fund may be invested in direct obligations of the United States, or obligations the principal of and interest on which are guaranteed by the United States government, or obligations of any agency or instrumentality of the United States government or in certificates of deposit issued by a bank or trust company located in this state, if such certificates are secured by a pledge of any of these obligations having an aggregate market value, exclusive of accrued interest, equal at least to the principal amount of the certificates so secured. Nothing in this subsection (g) shall be construed as a limitation on the duration of any deposit in trust for the retirement of obligations being refunded but that shall not have matured and that shall not be presently redeemable or, if presently redeemable, shall not have been called for redemption.

(h) All such bonds, refunding bonds and the interest coupons applicable thereto are hereby made and shall be construed to be negotiable instruments.

(i) (1) The principal of and interest on any bonds issued by the authority may be secured by a pledge of the revenues and receipts out of which the same shall be made payable and may be secured by a mortgage or deed of trust covering all or any part of the projects from which the revenues or receipts so pledged may be derived, including any enlargements of and additions to any such projects thereafter made, and/or by an assignment and pledge of all or any part of the authority's interest in and rights under the leases, sales contracts or loan agreements relating to such projects, or any thereof. The resolution under which the bonds are authorized to be issued and any such mortgage or deed of trust may contain any agreements and provisions respecting the maintenance of the projects covered thereby, the fixing and collection of rents or payments with respect to any projects or portions thereof covered by such resolution, mortgage or deed of trust, the creation and maintenance of special funds from such revenues and from the proceeds of such bonds, and the rights and remedies available in the event of default, all as the board shall deem advisable not in conflict with the provisions of this subdivision (i)(1). Each pledge, agreement, mortgage and deed of trust made for the benefit or security of any of the bonds of the agency shall continue effective until the principal of and interest on the bonds for the benefit of which the same were made shall have been fully paid.

(2) In the event of default in such payment or in any agreements of the agency made as a part of the contract under which the bonds were issued, whether contained in the proceedings authorizing the bonds or in any mortgage and deed of trust executed as security for the bonds, such payment or agreement may be enforced by suit, mandamus, the appointment of a receiver in equity or by foreclosure of any such mortgage and deed of trust, or any one (1) or more of these remedies.

(j) (1) In addition to the foregoing, the authority is authorized to issue general obligation bonds in conjunction with the state of Tennessee. Any bond issue wherein the general obligation of the state is attached must first be approved by the state funding board and by the general assembly and provisions made for amortization of both principal and interest for a period not to exceed forty (40) years. The authority shall present to the general assembly its needs from time to time with regard to specific general obligation bond issues by petition of the board delivered to the speakers of the house and senate, and to the chairs of the house and senate finance, ways and means committees. Any such petition shall contain a plan for amortizing such bond issue, and if such plan requires a tax levy by the county and municipal legislative bodies in the region, then approval of the plan committing the affected county and municipal governments to the necessary tax levy shall be submitted with the petition. The petition shall specify the specific bond issues, the purpose, land, works or improvements to be accomplished and their location.

(2) The general assembly may be asked in the petition to appropriate funds to contribute to the total amount of funds needed to amortize the bond issue. The levying of an ad valorem tax for a bond issue by a county or municipal government under this subsection (j) shall be binding and collectible by the state in case of default. Bonds issued under this subsection (j) shall be issued in the usual manner as state bonds and sold under such conditions as the general assembly may specify.

(k) No later than October of each year, the authority shall transmit to the governor a request and an amount of appropriation needed during the next fiscal year for authority purposes, including administration, operations and capital improvements, and appropriate justification for use of such appropriation, such amount or other amount as deemed appropriate by the governor to be included in the budget transmitted to the general assembly.
